Hi Stephanie,
Cleaning out my email box this morning and saw this. Did you ever discuss with Tracy?

Laura

Hi Tracy,

I'm following up on my voicemail from yesterday. Did you receive my message?

Anyway, Laura Yannayon and I would like to set up a time to chat with you via phone, and anyone else at the District that needs to be included, to discuss Rule 1320 and why it does not belong in the SIP. Please let me know some days and times that you are available to chat. Laura and I are both pretty free tomorrow, except that Laura has a Friday morning conflict (I don't know the time) and I have a conflict from 1 – 3. I'm free this afternoon, but Laura may have a conflict.

Thank you.

Sincerely,
Stephanie

Good Morning Stephanie,

I have received your question about the necessity of including Rule 1320 –*New Source Review for Toxic Air Contaminants* as a SIP submission.

The justification we cited for the inclusion of Rule 1320 in the SIP was that it covers the federal 112 provisions by providing the proof that we look for NESHAP and MACT implications and do case-by-case MACT if such is necessary on a preconstruction review basis.

Please let me know if we can provide further information or discussion.

Thanks,
